

**A Ranking consistency: B-spline IPP and maxnet
(species ordered by B-spline IPP AUC; n = 225)**

**B Per-species Δ AUC (B-spline IPP – maxnet)
(bars sorted; colours = NCEAS region)**

**C B-spline IPP AUC versus training sample size
(points = species; black line = spline smoother)**

**D Δ AUC (B-spline IPP – maxnet) versus sample size
(points = species; black line = spline smoother)**
